HUZAIFA RAESS ALVI

COMPUTER SCIENCE STUDENT

PROFILE

Computer Science student with a practical mindset and a passion for creating solutions. Focused on learning through projects, experimentation, and continuous skill development. Eager to contribute to research and projects that challenge my skills and expand my understanding of computer science.

EDUCATION

Intermediate (I.C.S)	2023-2025
Forman Christian College (FCC)	
MARKS: 79%	

Matric	2021-2023
Private	
MARKS: 91%	

PROJECTS

Quiz Platform	2024-2025
Developed an interactive quiz platform for medical students with detailed explanations for each answer. Currently adding PDF-based quizzes. Available on GitHub for open collaboration.	
Technologies Used: PYTHON - backend logics + Ai - front end	

NLP Chatbot (Python)	2025
Built a Python-based NLP chatbot that matches user queries with dataset answers using tokenization, lemmatization, and text processing.	
Technologies Used: Python, NLTK, spaCy, CSV	

ACHIEVEMENTS

- Volunteered in the Computer Society (2024–2025), managing quizzes, stalls, and competitions.
- Secured 2nd place in a science poster competition among three colleges.
- Completed a Digital Marketing course focused on customer acquisition and online growth.
